

Purposeful Rounding

Your health care team is dedicated to providing quality care.

To support your care, members of the health care team will be checking on you at least every two hours to ask you about and assess you for comfort needs.

We will assess you for:

Pain: We will monitor your pain and comfort level

Positioning: We will help you move and change positions

Personal Needs: We will assist you to the bathroom

Personal Environment: We will help you keep personal items in close reach such as eyeglasses, telephone, water, food and snacks.

Your health care provider will not wake you if you are sleeping, unless you or your doctor has asked us to do so.
